SCHOOL HIGHLIGHTS

Oakdale School, in close partnership with families and community, is a school where all TK - 8 children learn in an engaging, safe, educational environment in preparation for college, career and life success. Our dedicated staff works hard to ensure that every student reaches his or her learning targets as described by the Common Core State Standards. At Oakdale, we value, respect, and engage with the diverse cultures represented within our school, striving to create a family-friendly environment that fosters mutual respect, trust and care.

EXCELLENCE IN EDUCATION

Students who attend Oakdale School receive a comprehensive, coherent academic program with a strong emphasis on language arts and math. The primary grades are committed to early childhood literacy and a firm understanding of foundational math practices. Throughout the years, students are challenged to develop their reading comprehension skills, academic vocabulary, and produce high level coherent writing across the curriculum. Our math program focuses on problem solving, mathematical fluency and deep conceptual understanding using real-world problems. Students in 7th and 8th grade benefit from a middle school wide AVID curriculum and practices which aim to close the achievement gap and prepare students for college and career readiness in a global society.

K - 6 students benefit from VAPA instruction through weekly music and art classes while 7th/8th grade students engage in creative writing, yearbook, drama and AVID electives. Additionally, all students engage in daily, vigorous exercise through the school wide SPARK physical education program and A.S.I.S.T. structured sports program.

NOTABLE FEATURES

- 1:1 computer ratio for all students grades 3- 8
- 3:1 computer ratio for students K - 2
- Access to computer assisted support programs: iREADY reading program, Accelerated Reader, Imagine Learning and Jiji Math Program
